The State Senators sent their letter (see attached) after we had initially briefed Shaun on March 6th. I don't believe we ever received a controlled correspondence from the 9<sup>th</sup> floor to respond as I have no record of a reply from EPA.

Douglas's response is correct and I agree that is probably all we can say at this time. I have had no direct contact with the Senator either in person or by phone. He sent a letter to Shaun(?) I believe some time ago. Douglas -- did we respond to that letter?

Hi Rebecca: In regards to our request, we met with Powertech representatives on Wednesday because we had some outstanding questions, etc. that required their input as part of our preparing our proposed decisions on the draft UIC Class III and V permits and associated aquifer exemption. We are continuing to work with them to make sure we have the answers we need. That is all we can probably convey to the State Senator (or general public) at this point.

I have had no direct communication with the State Senator myself,

Douglas

Hi there,

I need to call the Senator's office back, and he mentioned to Paula that he had been in contact with Sadie about PowerTech – was that all over the phone and in person or were there any letters/emails sent? If anything in writing, could you send that to me?

Also, could you provide me with a brief wrap-up of yesterday's meeting with PowerTech?

Thanks!

Rebecca

Hi Rebecca: a pdf of the March 10<sup>th</sup> letter sent to Shaun from three SD legislators (including Senator Rampelberg) is attached. I have also included the document we used for an initial briefing for Shaun on March 6<sup>th</sup>.

This has to do with the uranium ISR site (Dewey-Burdock) in SD. The company is PowerTech. I will ask Douglas to send you the letter and maybe the last briefing paper we did for Shaun.

Hi Sadie.

We got a call from a SD Senator's office looking to meet with Shaun about PowerTech or PowerTank. He referenced a letter from you from February 2014. Would you mind sending that to me? Thanks.
